REPUBLICAN MEETING LAST NIGHT.-The republicans of the city held a meeting last night at the old Court House for the purpose of hearing the report of the committee appointed at a previous meeting to confer with the chairman of the executive committee of the Mahore wing of the readjuster party to ascertain in what manner that party proposed to make nominations for the offices to be voted for at the general election, and endersing the action of the Staunton convention in putting a straightout republican electoral ricket in the field. R. F. Tancil presided and H. L. Harris reted

as recretary. A. W. Harris from the committee appointed to confer with the chairman of the reacjuster committee, reported that the committee had waited upon that gentleman, and he had infermed them thas the readjusters did not propose to hold a delegated convention, but that the executive committee and sub-committees of the party would meet on Monday night next for the purpose of nominating candidates for the different offic s to be voted for, and that all persons intending to support the candidates put forth at that meeting would be admitted and allowed a vote and voice in the selection of the seil candidates.

A mo ion to receive and adopt the report ex-

cited considerable discu-sion. Geo. W. Hobday said he was disposed to lavor the reacjusters in some points, but he was in favor of requiring the same pledge from the reac justers that they required from the republi. cans. The question was if the republicans were to the unionly at a readjuster meeting and secceeded in nominating their condidates, weuld the readjusters pledge themselves to support their candidates thus nominated? He did not believe they would, for with them excrything was readjoster, and old Mr. Peon bad to leave them because they were too has on the roadjuster quastion. He was apposed to allowing themserves to be drawn into the spare of the

Charles Seals was opposed to selling out to Sheep and Lambs-Prices dropped to per 1b the readjuster party by geing into their meeting carried a chantileeer in his arms, and the rest to 4).64c per 15 for clipped sheep, 6.74c for un-shorn ao, and 7a-4c per 15 for Bouthern spring dates nominated by them. He saw through dates nomicated by them. He saw through impression that they were chicken fighters, holding for \$4.75 per 100 lbs, and not unanged throw sauff into his nose. The resolution hands at a lete hour. Nominally quoted dult at adopted at the readjuster committee meeting adopted at the reasjuster emmittee meeting didn't say envilling about allowing anybody to come into their meeting Menday night, and participate in the effection of cardidates, and they were not going to do it tither, for that would be no convention at all. The readjusters were just macking the old democratic waip.

James Dudley said he was at the readjuster's adopted, and he knew it was a dodge, for it came from an editor.

The report was received, and a resolution adopted postponing the further consideration of the question of affiliation with the readjuster party until after that party nomicates i seandidates for the offices to be veted for at the general election.

A motion being made that R. F. Tancil address the meeting, which Charles Scales opposed on the ground that this was no time to e beleving to specebes. The readjusters were not speech making, but they were preparing for the contest they were about to enter-holding private meetings in every cook and corner, &c If the resojusters required him to forsake the

The motion was withdrawn. A resolution were then adopted endorsing the gress from this Congres ional district. The meeting then adjourned.

POTOMAC FRUIT GROWERS.—The regular monthly meeting of the Potomse Fruit Grower's Association was held resterder in Washington. Dr. S. A. H. McKim in the chair and Dr. E. P. Howland secretary. After the preliminary business, remarks were made by several members on presp c: of fruits the coming sesson, and the general opinion was that there would be an abundance of all except peaches, which had been killed in some localities, but there would be a fair crop to the surrounding country through. The committee on excursions reported and asked instructions, which were given to the effect that the first excursion of the sosson would be on the steamer Corcoran on Friday. May 21. At the adjourned evening meeting the regular monthly essay was given by Profesfor Thomas Taylor—subject, 'Grape vine Cul-ure and Grape Rot."

HOW THE TELEPHONE WORKS IN AN ALEX ANDRIA CHURCH.-Rev. L. H. Pearca, of the M. E. Church, in this city was at sunt from his pulpit last Sunday assisting at a courch dedica tion in Loudoup, and a strange minister took his place. Mr. P. had just arranged a telephone between his house and the church, so that the members of his family who wight have to remain at home from time to time during services could hear the preaching. The con'r. vacce for collecting and massaiming the sound was fixed on a pedestal with a weighted fact as as to hel! it fimly. It was placed on the platform near the pulpit. The wide black mouth of the tele-phone looked like the mouth of an immesse ornuon ready to fire upon the audience. The people who could see it watched it with tuspicion and uncasio st. Every thing moved present was closed his last prayer and was about to say "smen," when like a clap of thurder or the roar of a carson, the mysterious ob-ject on the pulpit seemed to "go off" and dis appeared. The effect on the audience can hardly be imagined. Was it the sound of the last trump? Had Gab.iel speken? or had some evil spirit used the arrangement on the platform to disturb the sanctity of the help place? The corgregation started from their knees es though the judgment had come sure enough. The preacher forgot he was praying, and, in his fright, without a ying the usual 'amen," turned to look with distended cyes at the ruins of the telephone. The organist, how ever took in the situation from the singers' gallery, and began "Old Hundred" with all the power of the organ, and the congregation, seeing everybody was safe, and not knowing what clse to do. joined in singing the dexploxy. On examination it was found that the line had been drawn so tight that one of the supporters broke, and the line drooping was caught by a passing buggy, which brought down the apparatus in the pull it with an awful crash as above described. It is said that the proceder has not yet and 'smen' to the closing prayer of that

coived, calling attention to some needed repairs to the engine room of the Columbia Steam Fire Company.

After examining the several samples of hose submitted by the different manufacturers, the board decided to purchase 500 feet of the Eureka Hose Company's hose of the red cross

Mr. F. E. Corbett was appointed a committee to superiatend some nerded repairs to hose carriages. The meeting then adjourced.

STRANGE MENDICANTS -The number of beggars in this city has for many years been ex cessive, and the acquisition of two additional ones in the shape of a man and woman who are going around the city soliciting money, is to be lamented. The man appears to be between fifty and sixty years of age, smooth face, ascends porches very rimbly, is in perfect health, and from his demeasor appears to be anything but a povice in his profession. The woman generally sacaks around a corner or under the shadow of some perch while the man undertakes to . x. cite the symma by of those they meet by telling his stories of want and poverty, no deubt super-induced, if they do exist, by his attempts or determination to except the Adamic ecotence.

FINAL NOTICE.

IN ARREARS FOR CITY TAXES.
The time allowed for the collection of city taxes for the present fiscal year expires May 30, 1830 We give final notice that if the bills still remaining in our hands unpaid are not settled in the next ave days, we shall enforce their collec-tion by distraint, as the law directs. We have been as indulgent to all as possible. Our duty is plain and imperative. We have either to pay the bills or collect them, and we sincerely hope that those still in arrears will come forward and settle, and thereby relieve us of the necessity of enforcing the law, which we will surely do be-
